Preparedness | Mobility situation report - Haiti

Part 1 | National overview (01 Nov 25 - 30 Sep 26)

Communal sections with the largest estimated change in population between 01 Nov 25 - 30 Sep 26

Department	Communal section	Population estimate Sep 2026	Trend type in the last 12 months	Estimated change over the last 12 months
West	2e Section Morne l'Hopital	177,400	Increasing	12,100
West	1re Section Turgeau	476,600	Decreasing	-11,300
West	10e Section Thor	261,800	Decreasing	-6,390
West	3e Section Bellevue	112,200	Decreasing	-4,900
West	3e Section Sourcailles	26,400	Decreasing	-3,370

Cumulative estimated population change by departments and communal sections between 1 Nov 2025 and 30 Sep 2026

Key observations for the period 01 Nov 25 - 30 Sep 26

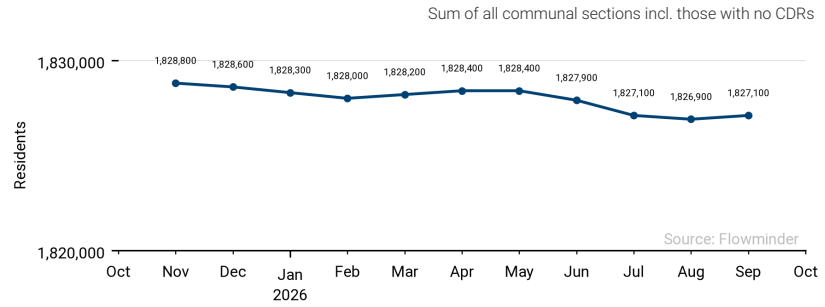

- **NOTE:** Estimates (v5.0) now use voice call, SMS and mobile data session records, and are not comparable with previous reports, which used voice call records only. There is currently a gap in mobile data session records up to May 2026. We are working with Digicel to fill it, and future releases may revise some estimates.
- **NOTE**: Partial and low population coverage may bias the estimates, particularly in Artibonite, Centre, North-East and North-West, where full data for the period are available for only a few sections.
- In the Port-au-Prince Metropolitan Area (ZMPAP), 2e Section Morne l'Hôpital (Port-au-Prince) recorded the largest estimated population increase nationally (+12,100). The largest decreases were in 1re Section Turgeau (Port-au-Prince) (-11,300; stable between June and September 2026), 10e Section Thor (Carrefour) (-6,390; declining since May) and 3e Section Bellevue (Tabarre) (-4,900).
- In West outside ZMPAP, the largest estimated decrease was in 3e Section Sourcailles (Kenscoff) (-3,370).
- In Artibonite, the estimated population of 2e Section Bois Neuf (Saint-Marc) declined overall (-2,620) with partial recovery May-July, renewed decline August - September 2026 .
- In Nippes, 2e Section Anse aux Pins (Plaisance du Sud) recorded the largest increase outside West (+1,470).
- In South-East, the estimated population has declined by 1,700 since November 2025, with the largest decreases in 5e Section Bas de Grandou (Bainet) (-1,230) and 4e Section Fond Jean Noël (Marigot) (-1,140).

These population estimates come from Call Detail Records (CDRs) (mobile phone usage data) and other datasets for reference and adjustments. The estimates provided are not survey estimates, key informant estimates or field observations. If you are unfamiliar with this data source please read our documentation which can be found at www.flowgeek.org

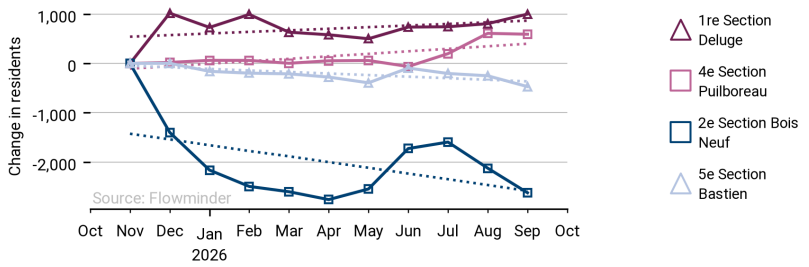

Preparedness | Mobility situation report - Haiti

Part 2 | Artibonite department overview (01 Nov 25 - 30 Sep 26)

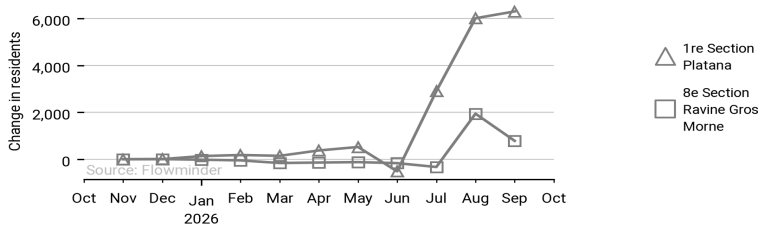

Monthly estimated population in Artibonite (01 Nov 25 - 30 Sep 26)

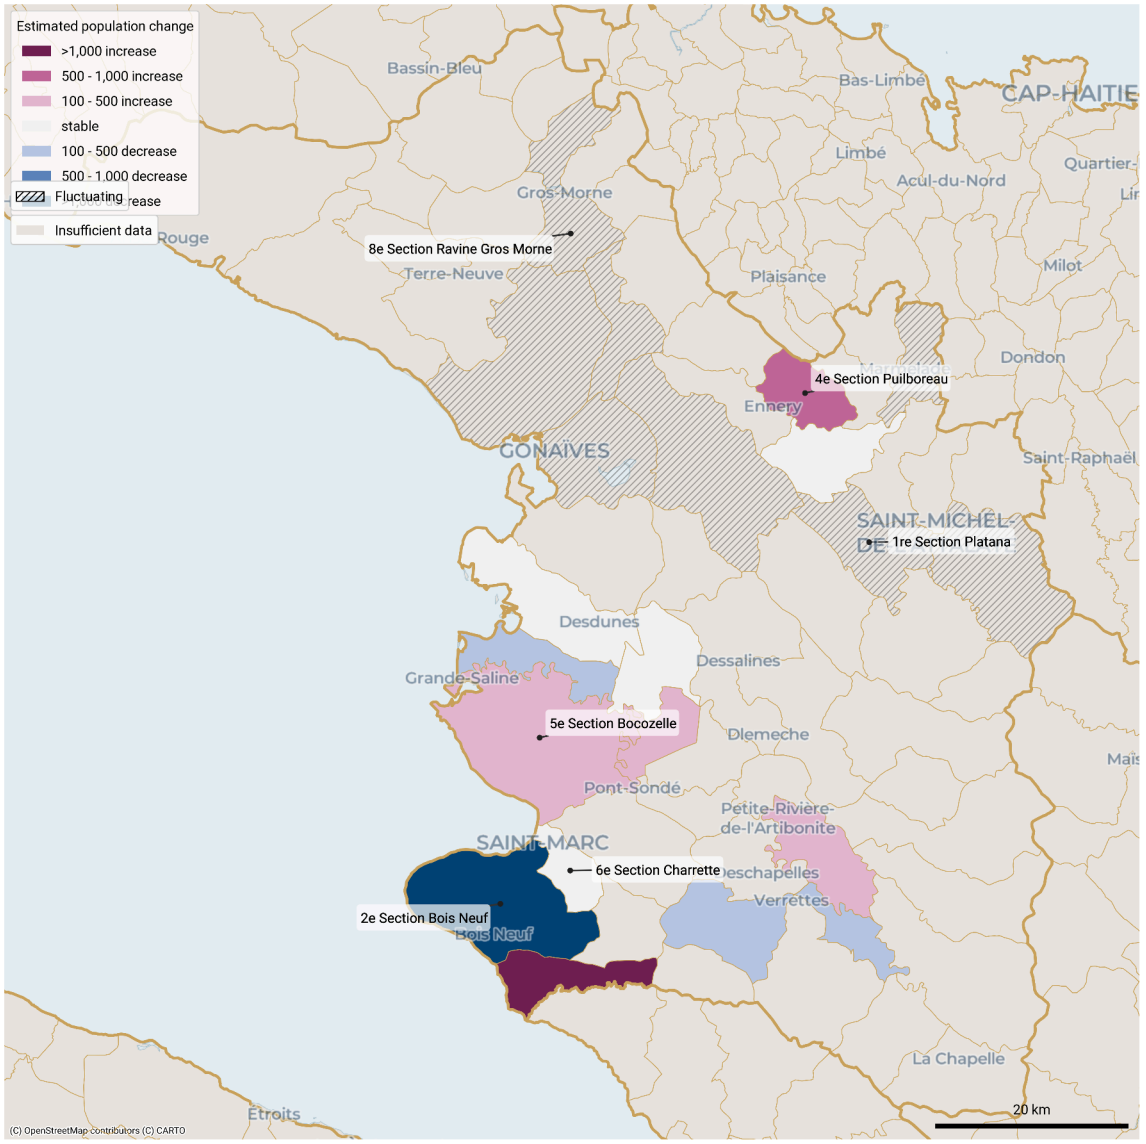

Communal sections in Artibonite with largest estimated change in population (01 Nov 25 - 30 Sep 26)

Largest month-to-month changes in resident population in fluctuating communal sections in Artibonite -department (01 Nov 25 - 30 Sep 26)

Cumulative estimated population change per communal section in Artibonite from 1 Nov 2025 to 30 Sep 2026

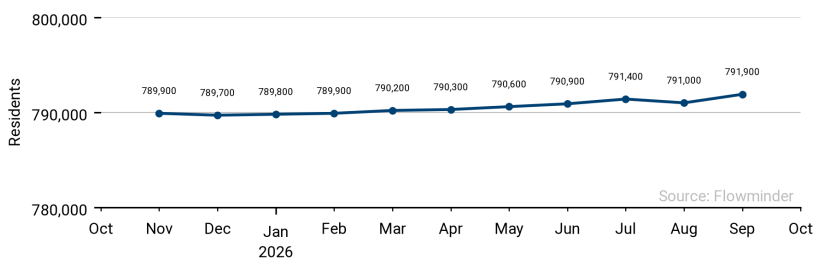

These population estimates come from Call Detail Records (CDRs) (mobile phone usage data) and other datasets for reference and adjustments. The estimates provided are not survey estimates, key informant estimates or field observations. If you are unfamiliar with this data source please read our documentation which can be found at www.flowgeek.org

Preparedness | Mobility situation report - Haiti

Part 2 | Centre department overview (01 Nov 25 - 30 Sep 26)

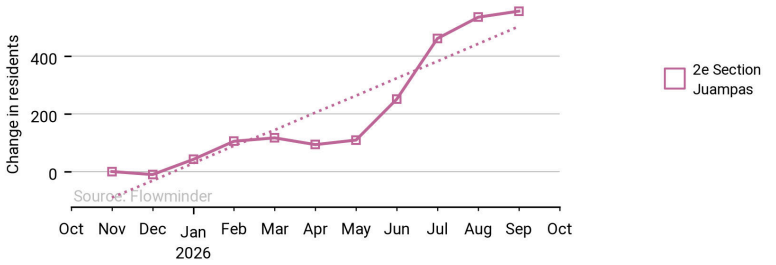

Monthly estimated population in Centre (01 Nov 25 - 30 Sep 26)

Sum of all communal sections incl. those with no CDRs

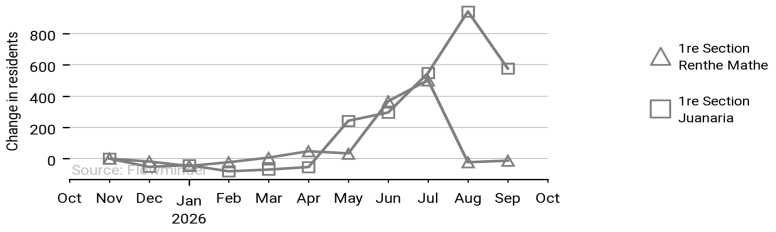

Communal sections in Centre with largest estimated change in population (01 Nov 25 - 30 Sep 26)

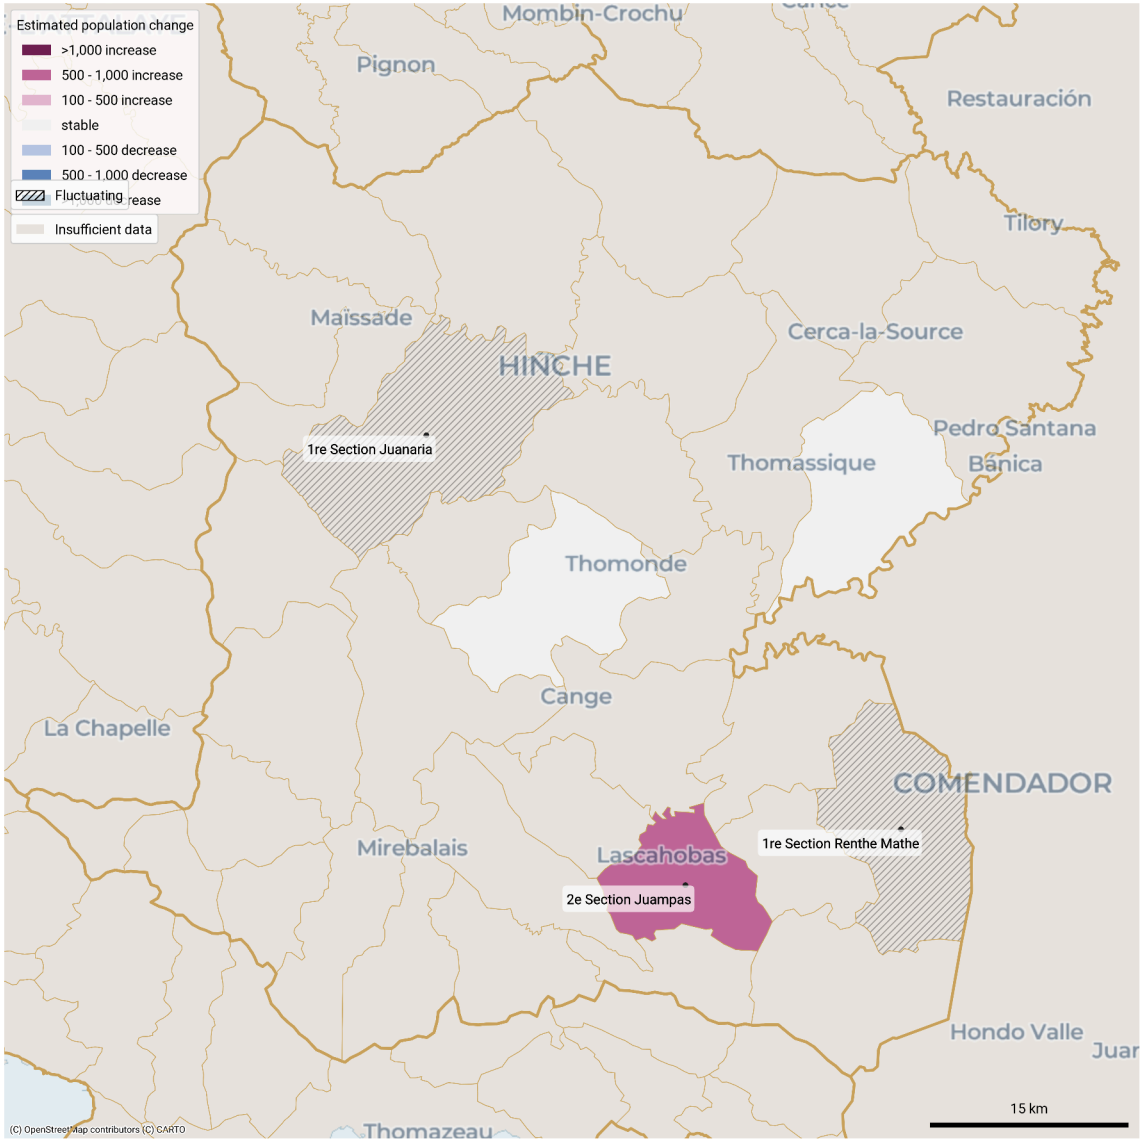

Solid line: estimates. Dotted line: model.

Largest month-to-month changes in resident population in fluctuating communal sections in Centre -department (01 Nov 25 - 30 Sep 26)

Cumulative estimated population change per communal section in Centre from 1 Nov 2025 to 30 Sep 2026

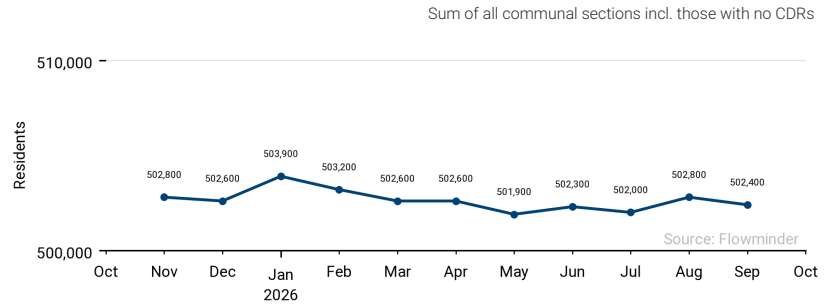

These population estimates come from Call Detail Records (CDRs) (mobile phone usage data) and other datasets for reference and adjustments. The estimates provided are not survey estimates, key informant estimates or field observations. If you are unfamiliar with this data source please read our documentation which can be found at www.flowgeek.org

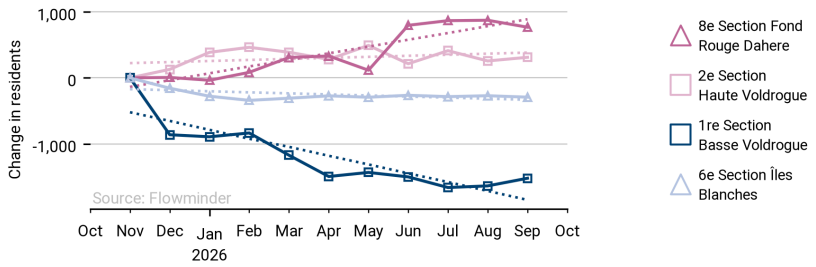

Preparedness | Mobility situation report - Haiti

Part 2 | Grande'Anse department overview (01 Nov 25 - 30 Sep 26)

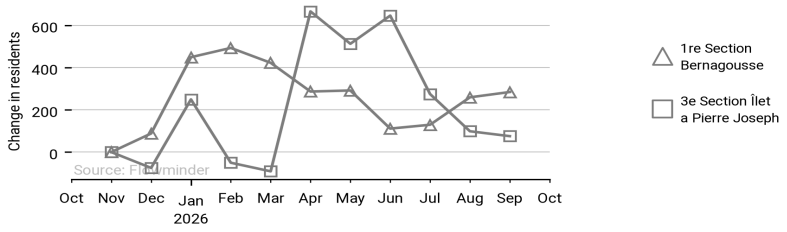

Monthly estimated population in Grande'Anse (01 Nov 25 - 30 Sep 26)

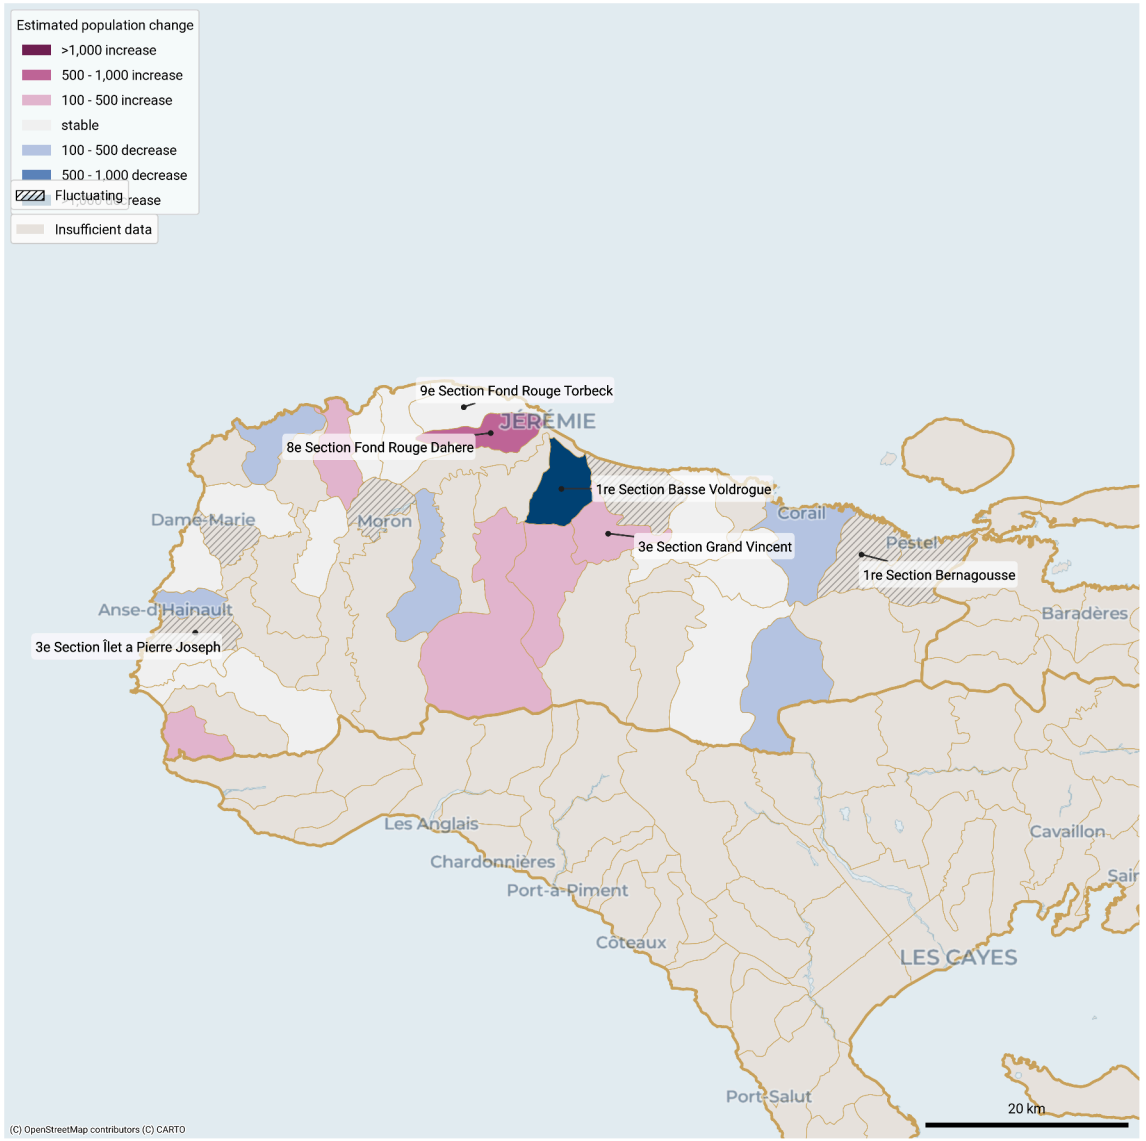

Communal sections in Grande'Anse with largest estimated change in population (01 Nov 25 - 30 Sep 26)

Largest month-to-month changes in resident population in fluctuating communal sections in Grande'Anse -department (01 Nov 25 - 30 Sep 26)

Cumulative estimated population change per communal section in Grande'Anse from 1 Nov 2025 to 30 Sep 2026

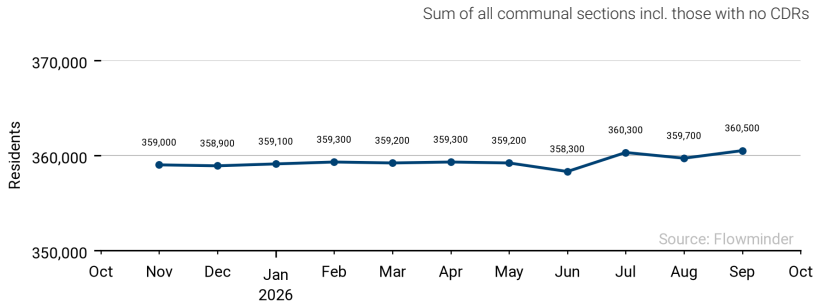

These population estimates come from Call Detail Records (CDRs) (mobile phone usage data) and other datasets for reference and adjustments. The estimates provided are not survey estimates, key informant estimates or field observations. If you are unfamiliar with this data source please read our documentation which can be found at www.flowgeek.org

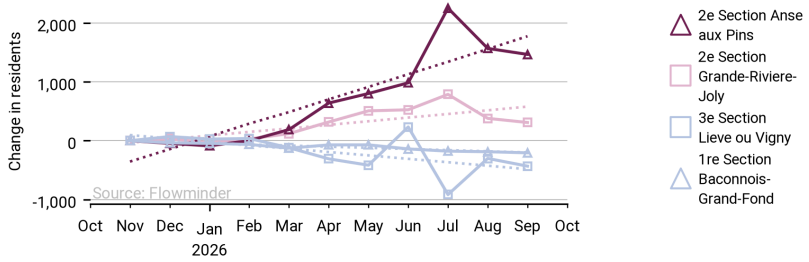

Preparedness | Mobility situation report - Haiti

Part 2 | Nippes department overview (01 Nov 25 - 30 Sep 26)

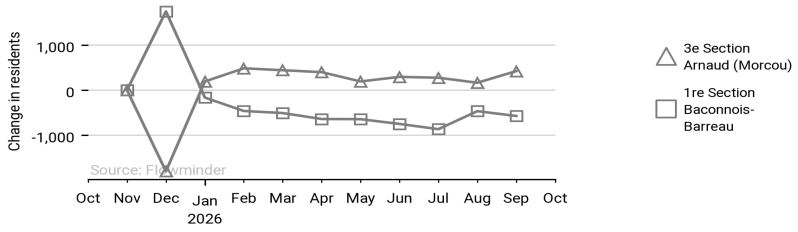

Monthly estimated population in Nippes (01 Nov 25 - 30 Sep 26)

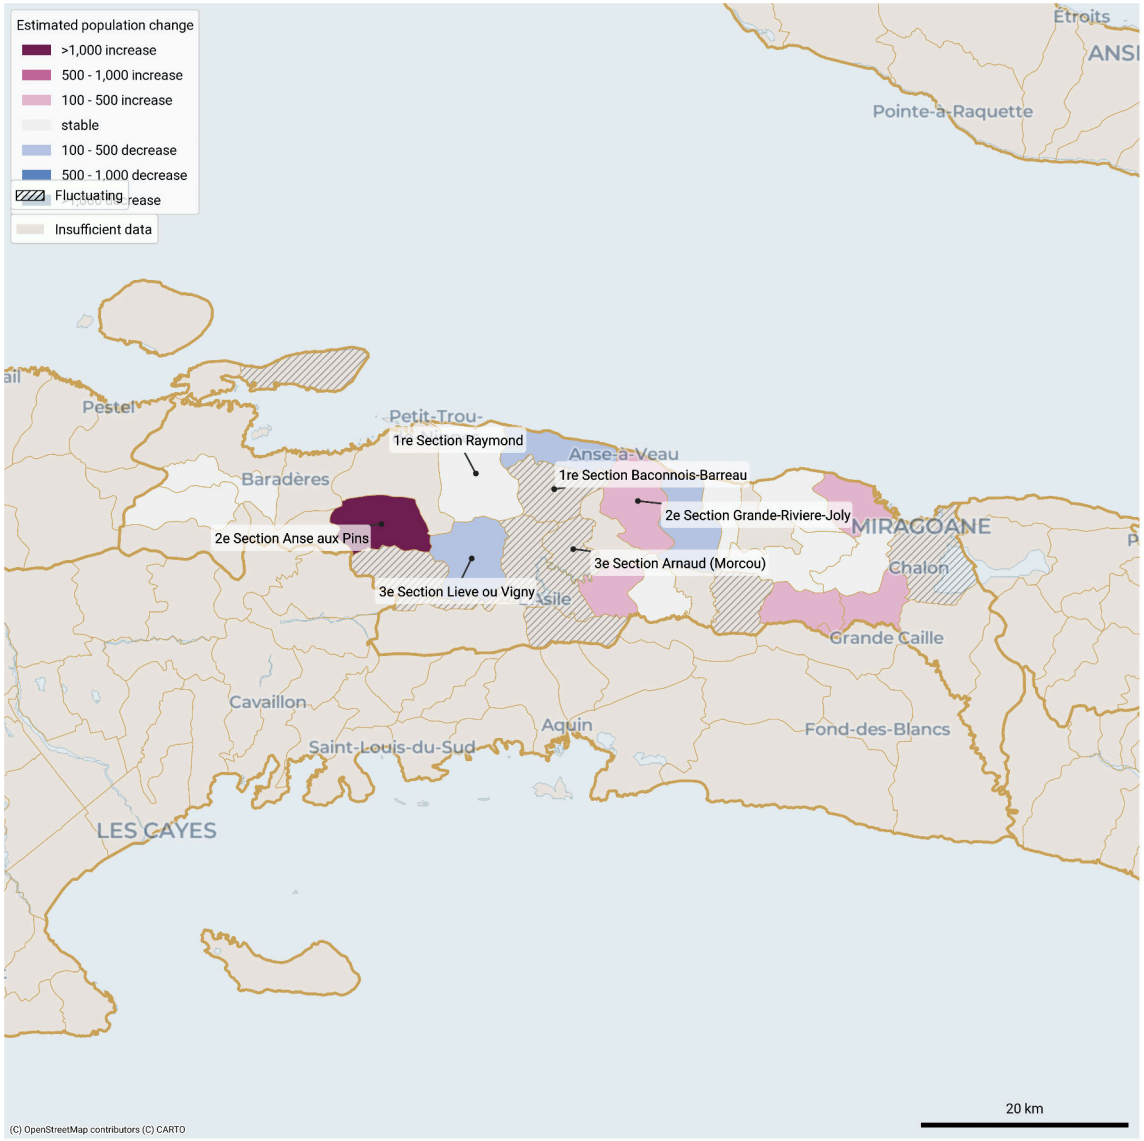

Communal sections in Nippes with largest estimated change in population (01 Nov 25 - 30 Sep 26)

Largest month-to-month changes in resident population in fluctuating communal sections in Nippes -department (01 Nov 25 - 30 Sep 26)

Cumulative estimated population change per communal section in Nippes from 1 Nov 2025 to 30 Sep 2026

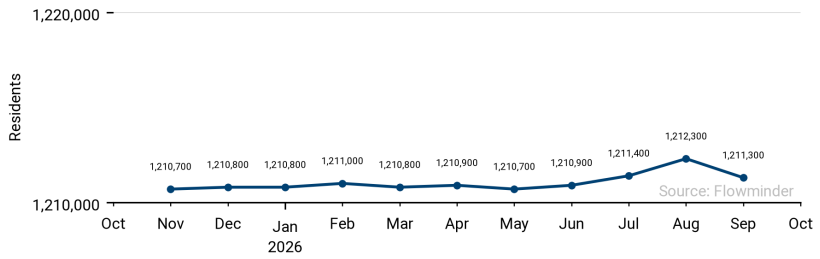

These population estimates come from Call Detail Records (CDRs) (mobile phone usage data) and other datasets for reference and adjustments. The estimates provided are not survey estimates, key informant estimates or field observations. If you are unfamiliar with this data source please read our documentation which can be found at www.flowgeek.org

Preparedness | Mobility situation report - Haiti

Part 2 | North department overview (01 Nov 25 - 30 Sep 26)

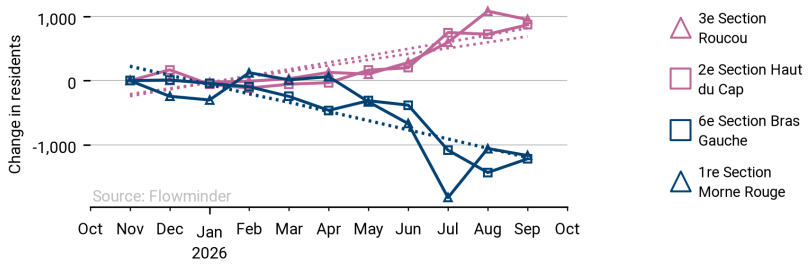

Monthly estimated population in North (01 Nov 25 - 30 Sep 26)

Sum of all communal sections incl. those with no CDRs

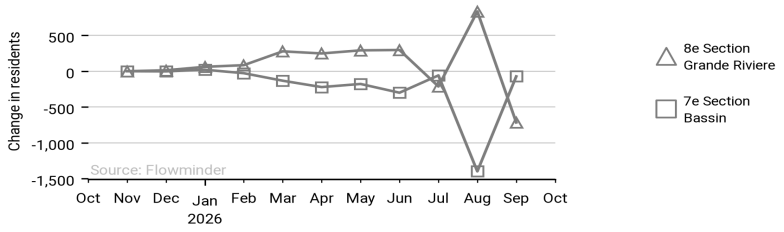

Communal sections in North with largest estimated change in population (01 Nov 25 - 30 Sep 26)

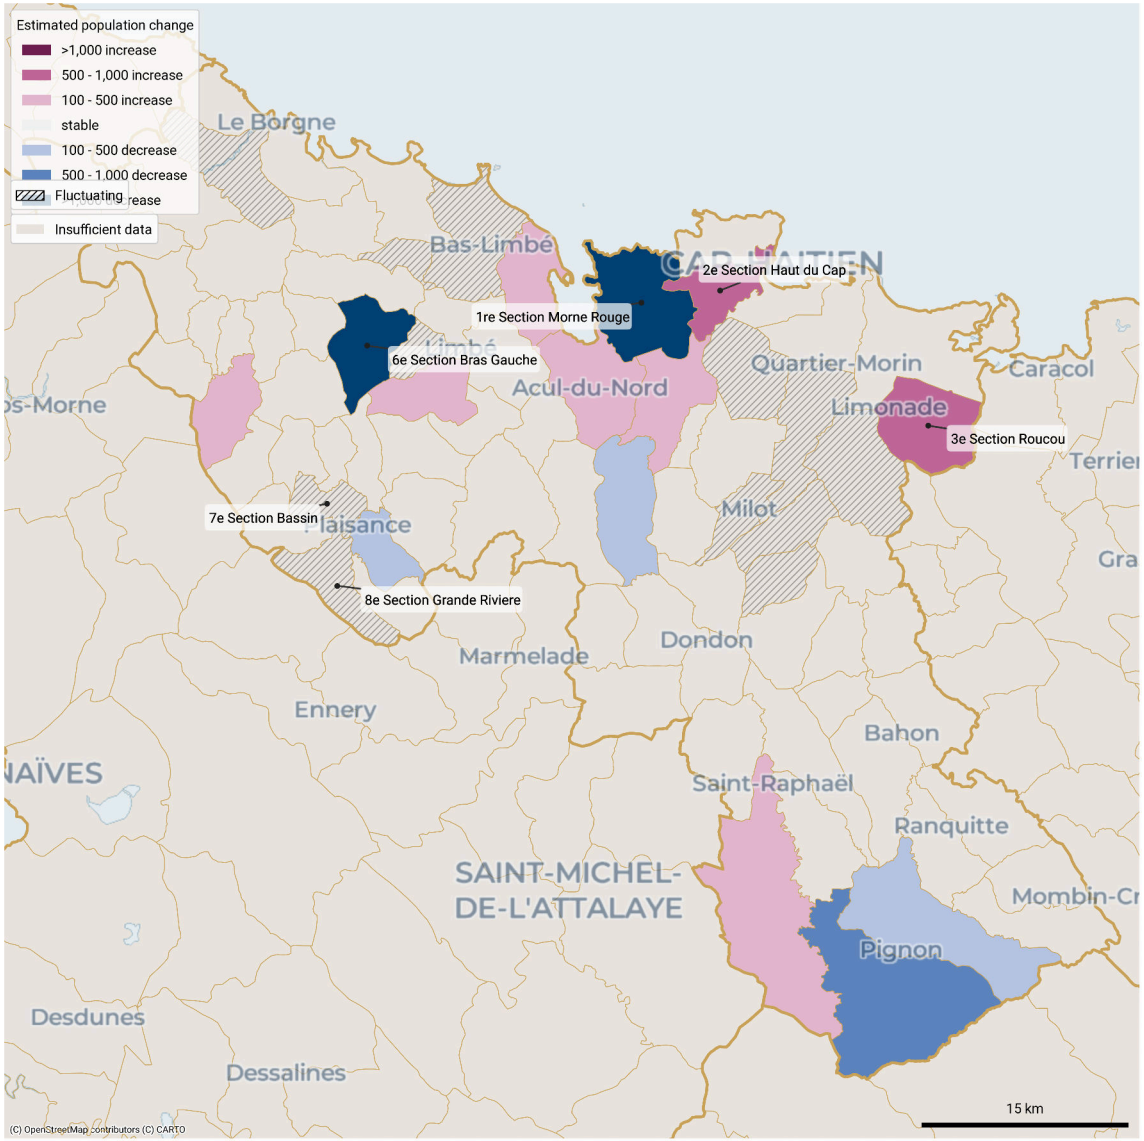

Solid line: estimates. Dotted line: model.

Largest month-to-month changes in resident population in fluctuating communal sections in North -department (01 Nov 25 - 30 Sep 26)

Cumulative estimated population change per communal section in North from 1 Nov 2025 to 30 Sep 2026

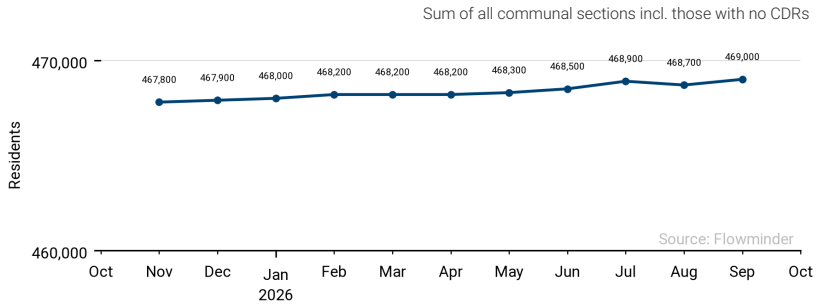

These population estimates come from Call Detail Records (CDRs) (mobile phone usage data) and other datasets for reference and adjustments. The estimates provided are not survey estimates, key informant estimates or field observations. If you are unfamiliar with this data source please read our documentation which can be found at www.flowgeek.org

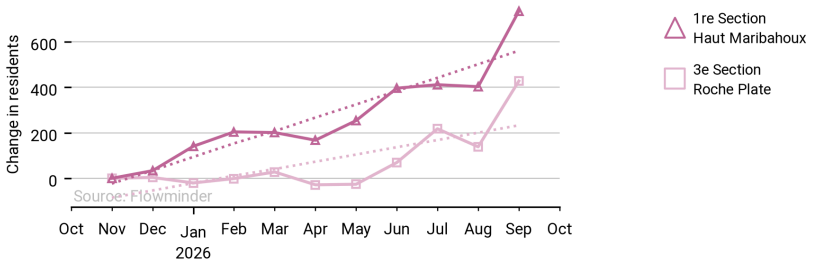

Preparedness | Mobility situation report - Haiti

Part 2 | North-east department overview (01 Nov 25 - 30 Sep 26)

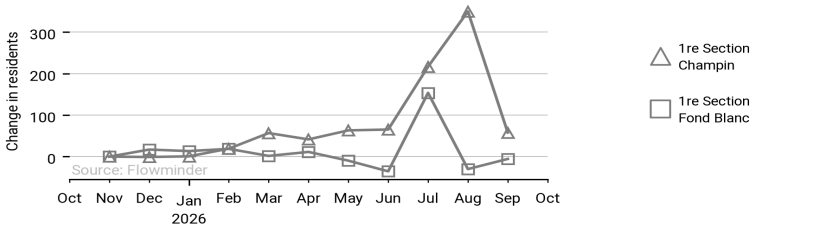

Monthly estimated population in North-east (01 Nov 25 - 30 Sep 26)

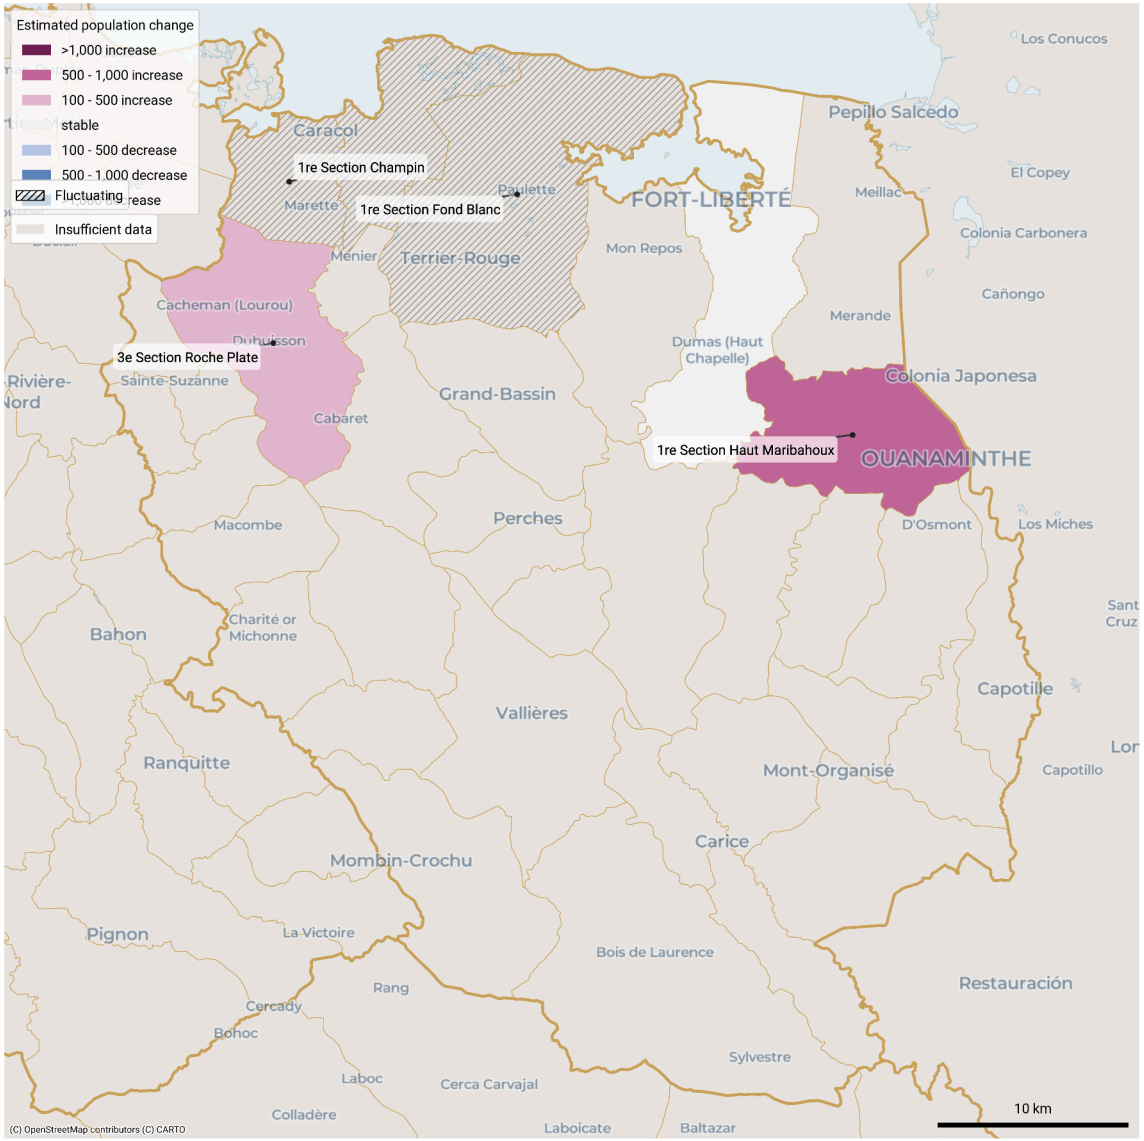

Communal sections in North-east with largest estimated change in population (01 Nov 25 - 30 Sep 26)

Largest month-to-month changes in resident population in fluctuating communal sections in North-east -department (01 Nov 25 - 30 Sep 26)

Cumulative estimated population change per communal section in North-east from 1 Nov 2025 to 30 Sep 2026

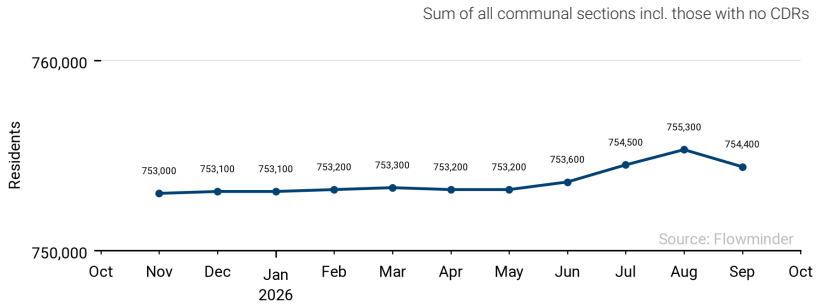

These population estimates come from Call Detail Records (CDRs) (mobile phone usage data) and other datasets for reference and adjustments. The estimates provided are not survey estimates, key informant estimates or field observations. If you are unfamiliar with this data source please read our documentation which can be found at www.flowgeek.org

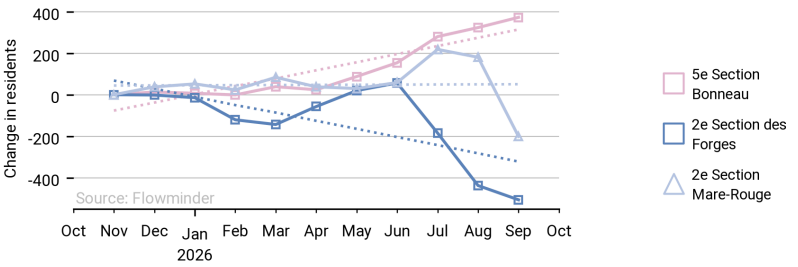

Preparedness | Mobility situation report - Haiti

Part 2 | North-west department overview (01 Nov 25 - 30 Sep 26)

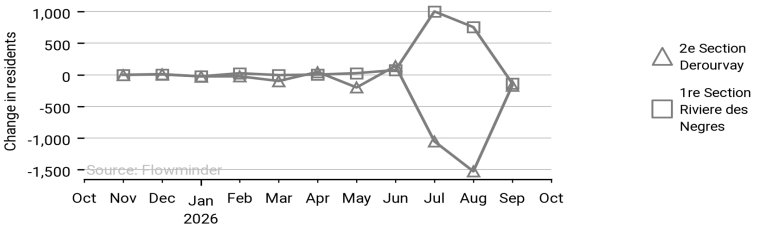

Monthly estimated population in North-west (01 Nov 25 - 30 Sep 26)

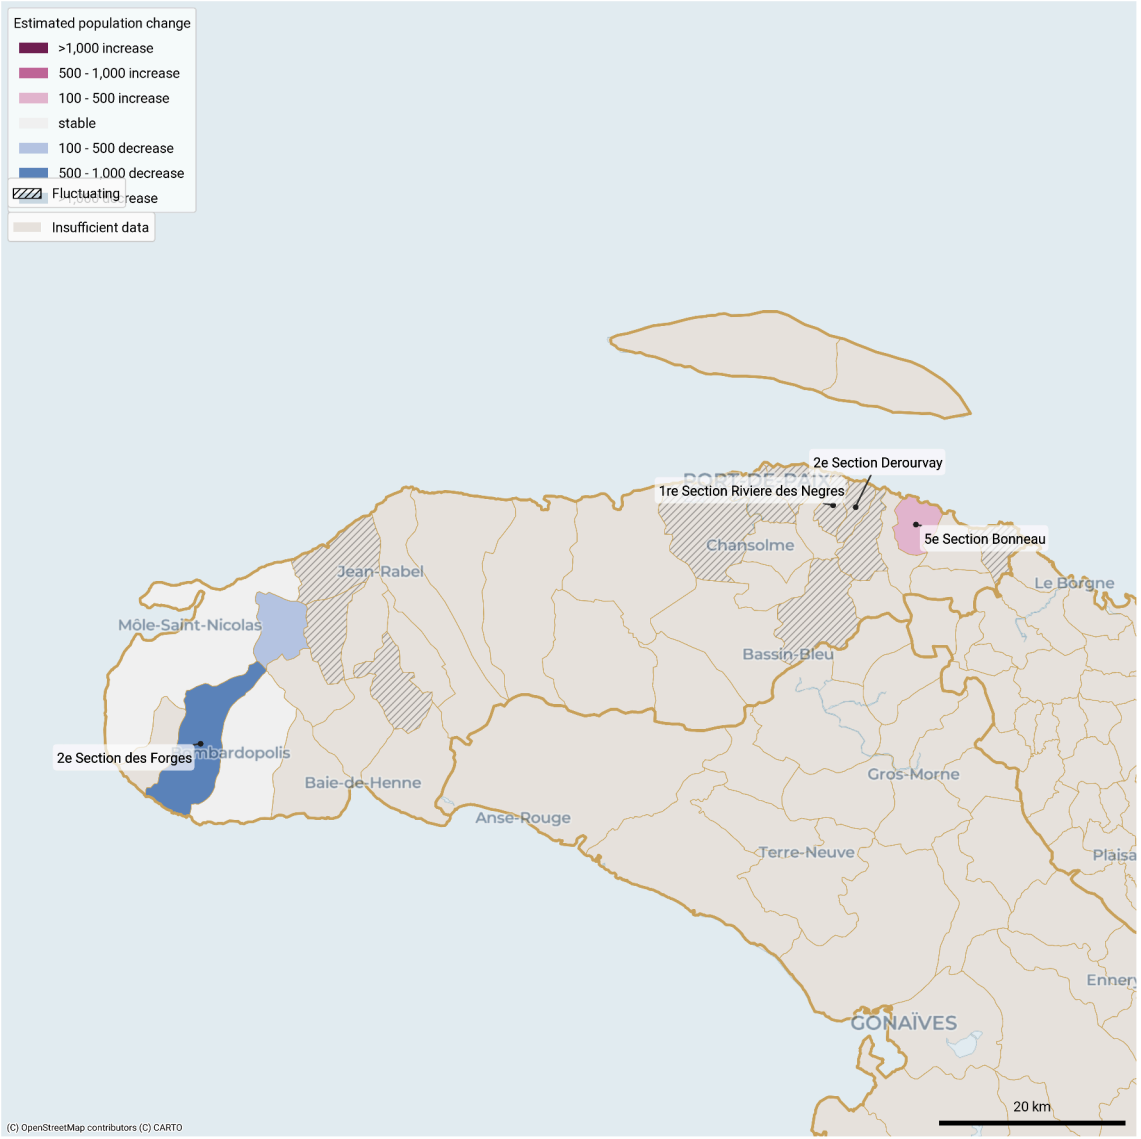

Communal sections in North-west with largest estimated change in population (01 Nov 25 - 30 Sep 26)

Largest month-to-month changes in resident population in fluctuating communal sections in North-west -department (01 Nov 25 - 30 Sep 26)

Cumulative estimated population change per communal section in North-west from 1 Nov 2025 to 30 Sep 2026

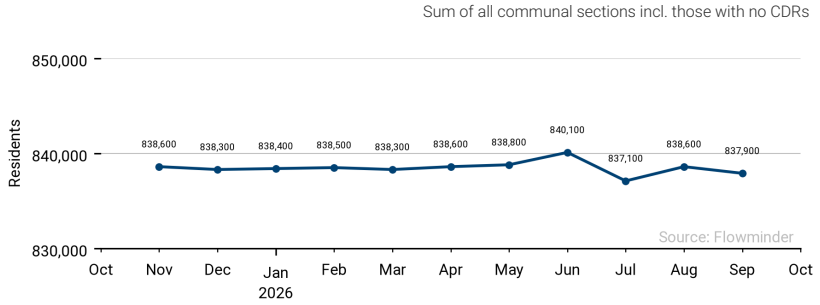

These population estimates come from Call Detail Records (CDRs) (mobile phone usage data) and other datasets for reference and adjustments. The estimates provided are not survey estimates, key informant estimates or field observations. If you are unfamiliar with this data source please read our documentation which can be found at www.flowgeek.org

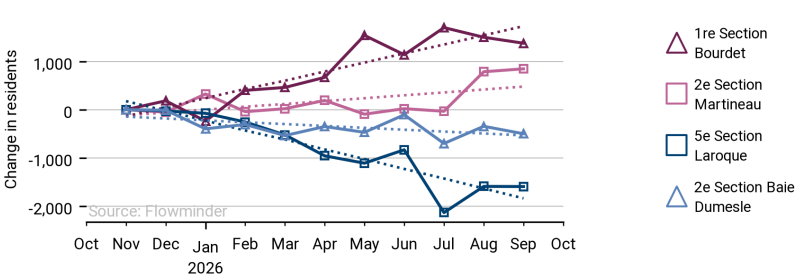

Preparedness | Mobility situation report - Haiti

Part 2 | South department overview (01 Nov 25 - 30 Sep 26)

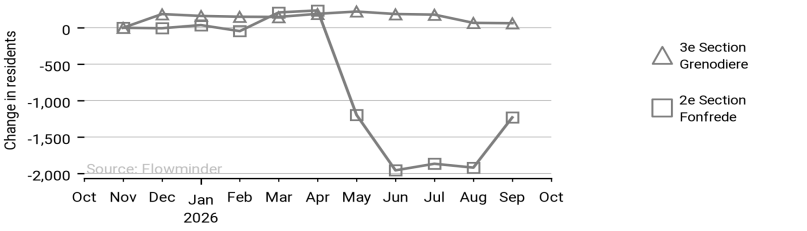

Monthly estimated population in South (01 Nov 25 - 30 Sep 26)

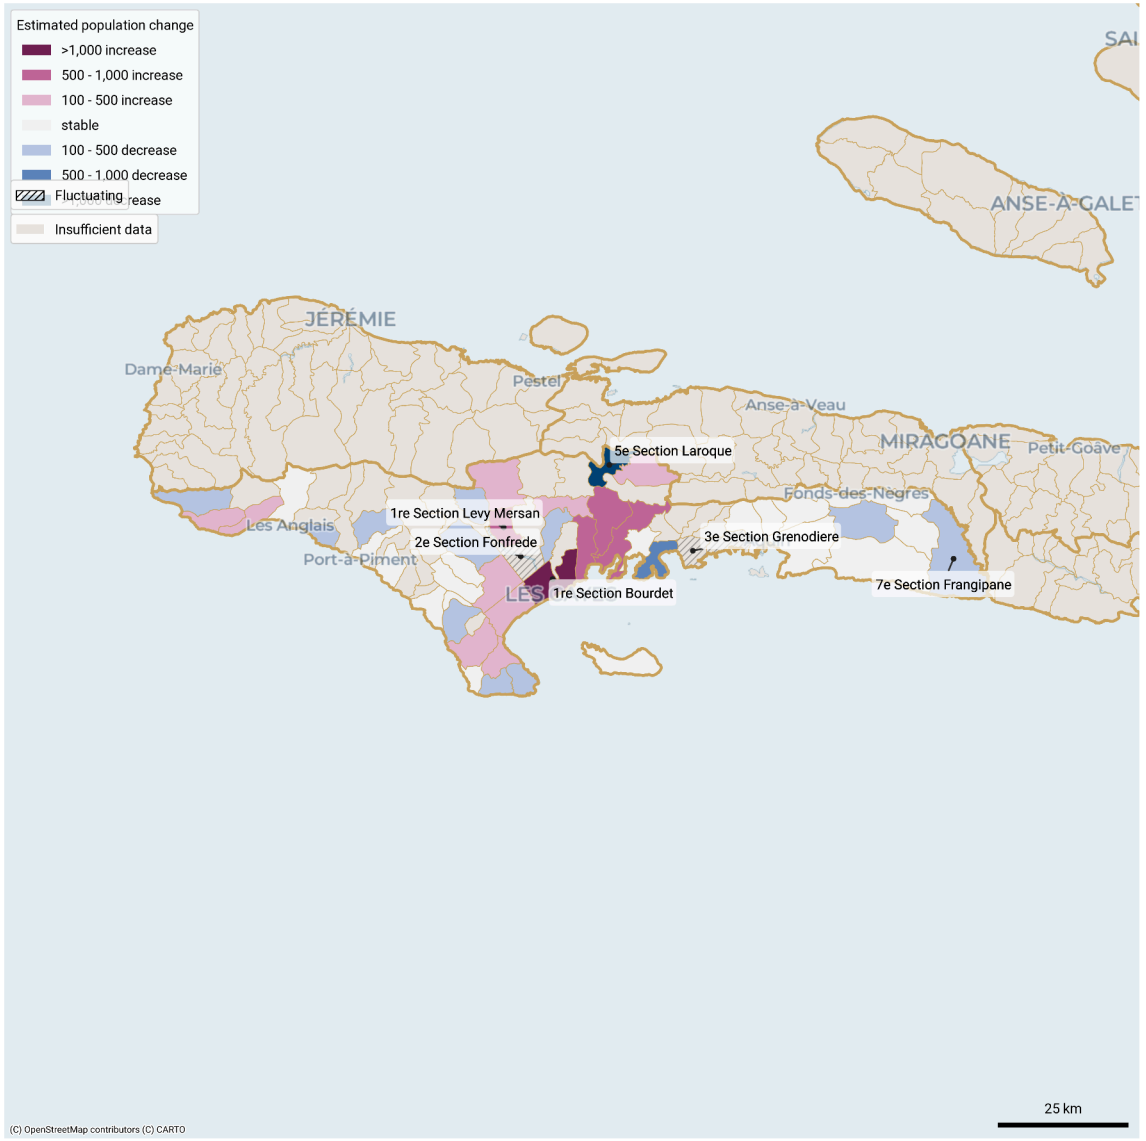

Communal sections in South with largest estimated change in population (01 Nov 25 - 30 Sep 26)

Largest month-to-month changes in resident population in fluctuating communal sections in South -department (01 Nov 25 - 30 Sep 26)

Cumulative estimated population change per communal section in South from 1 Nov 2025 to 30 Sep 2026

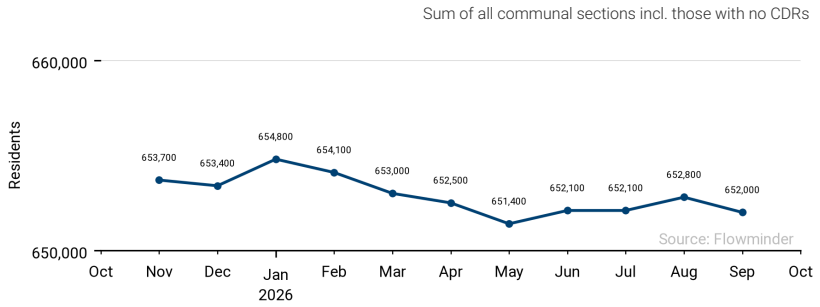

These population estimates come from Call Detail Records (CDRs) (mobile phone usage data) and other datasets for reference and adjustments. The estimates provided are not survey estimates, key informant estimates or field observations. If you are unfamiliar with this data source please read our documentation which can be found at www.flowgeek.org

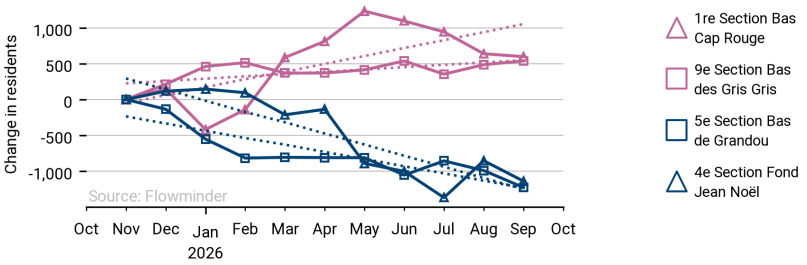

Preparedness | Mobility situation report - Haiti

Part 2 | South-east department overview (01 Nov 25 - 30 Sep 26)

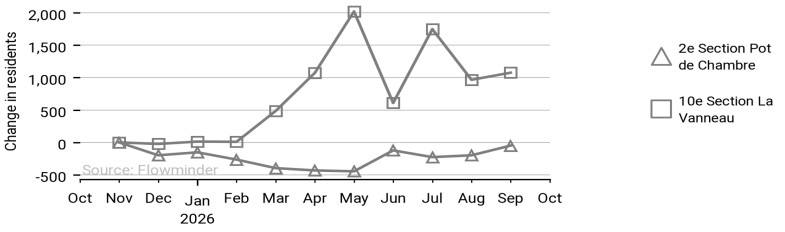

Monthly estimated population in South-east (01 Nov 25 - 30 Sep 26)

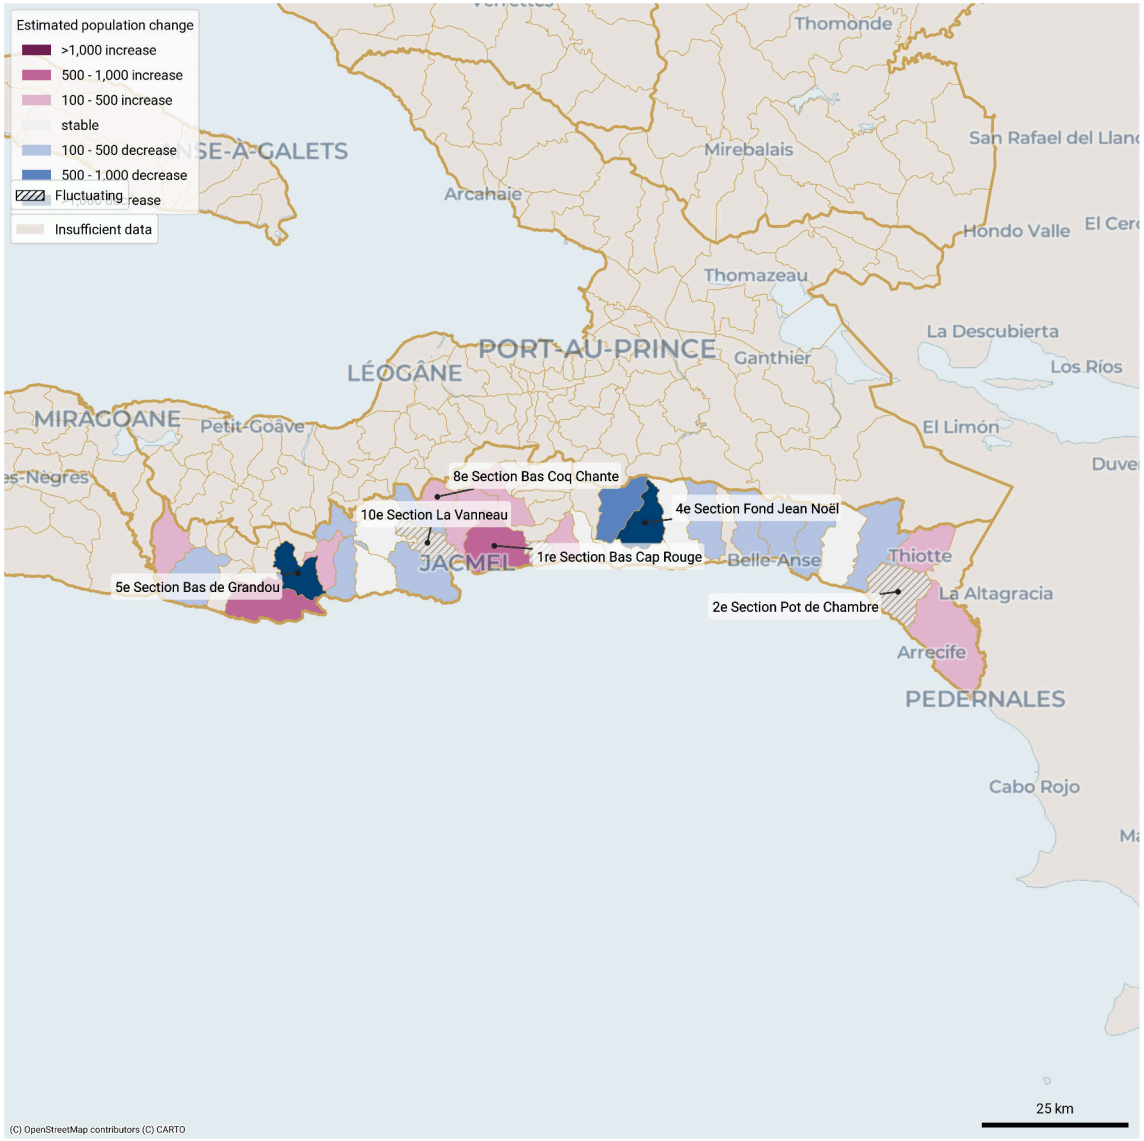

Communal sections in South-east with largest estimated change in population (01 Nov 25 - 30 Sep 26)

Largest month-to-month changes in resident population in fluctuating communal sections in South-east -department (01 Nov 25 - 30 Sep 26)

Cumulative estimated population change per communal section in South-east from 1 Nov 2025 to 30 Sep 2026

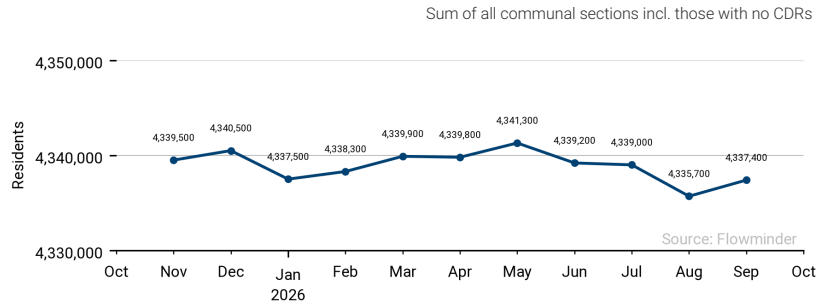

These population estimates come from Call Detail Records (CDRs) (mobile phone usage data) and other datasets for reference and adjustments. The estimates provided are not survey estimates, key informant estimates or field observations. If you are unfamiliar with this data source please read our documentation which can be found at www.flowgeek.org

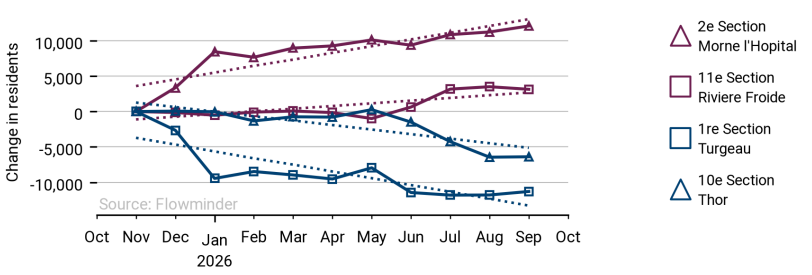

Preparedness | Mobility situation report - Haiti

Part 2 | West department overview (01 Nov 25 - 30 Sep 26)

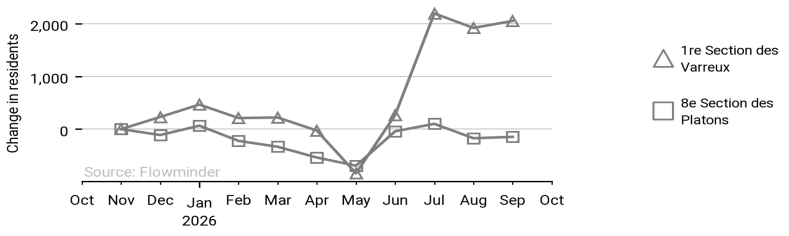

Monthly estimated population in West (01 Nov 25 - 30 Sep 26)

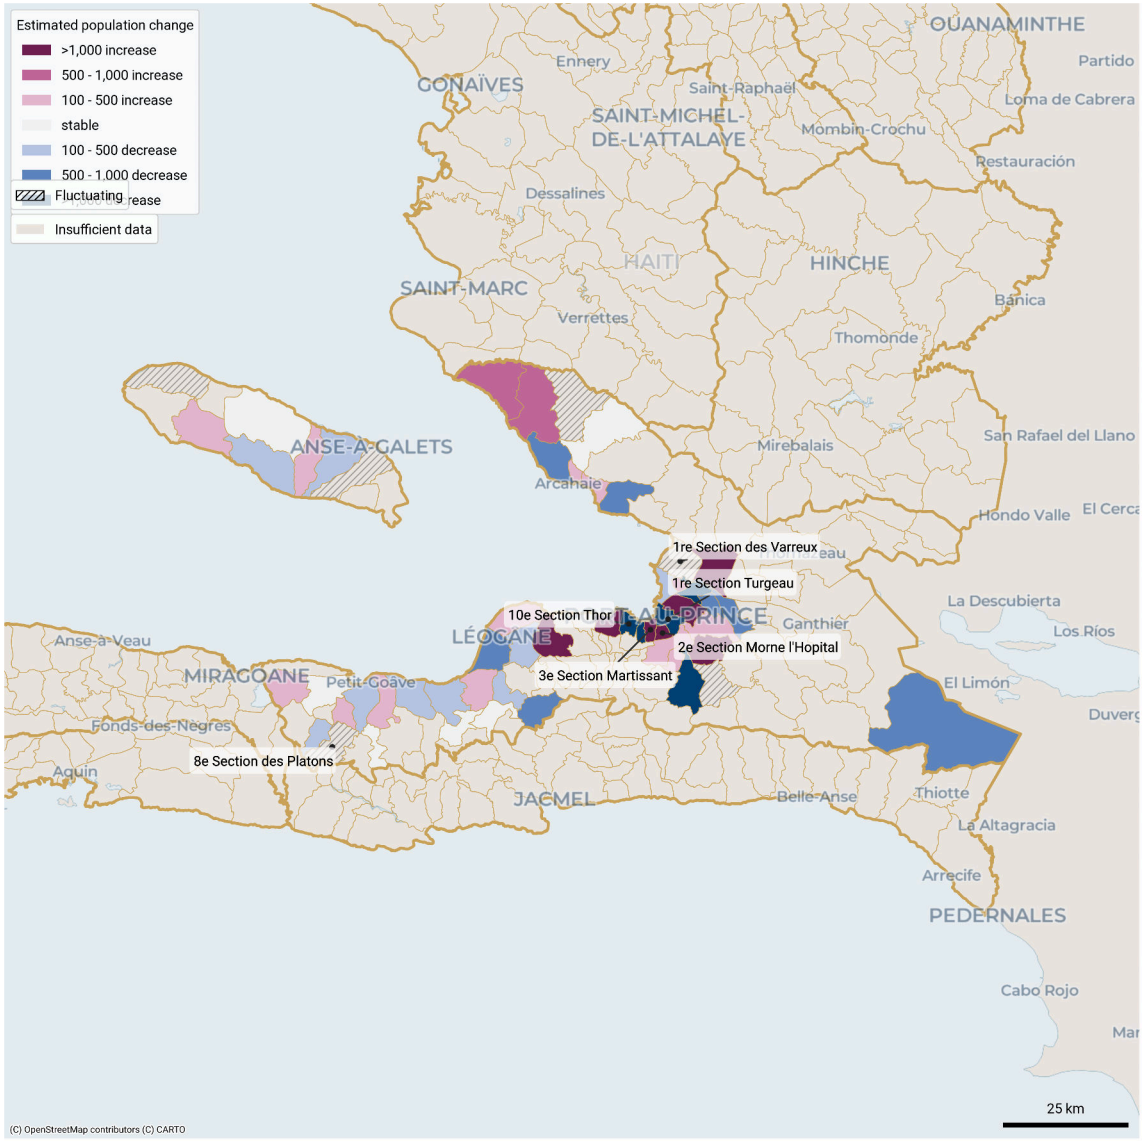

Communal sections in West with largest estimated change in population (01 Nov 25 - 30 Sep 26)

Largest month-to-month changes in resident population in fluctuating communal sections in West -department (01 Nov 25 - 30 Sep 26)

Cumulative estimated population change per communal section in West from 1 Nov 2025 to 30 Sep 2026

These population estimates come from Call Detail Records (CDRs) (mobile phone usage data) and other datasets for reference and adjustments. The estimates provided are not survey estimates, key informant estimates or field observations. If you are unfamiliar with this data source please read our documentation which can be found at www.flowgeek.org

Part 3 | Communal sections with changes in population estimates

List of communal sections with estimated changes in population where |total change|> 100 (01 Nov 25 - 30 Sep 26): increasing, decreasing or fluctuating

Department	Communal section	Population estimate Sep 2026	Trend type in the last 12 months	Estimated change over the last 12 months	Largest estimated month-to-month change
Artibonite	1re Section Pont Tamarin	248,400	Fluctuating	-	1610
Artibonite	2e Section Bassin	119,300	Fluctuating	-	1100
Artibonite	2e Section Bois Neuf (Saint-Marc)	64,500	Decreasing	-2,620	-
Artibonite	5e Section Bocozelle	63,800	Increasing	230	-
Artibonite	3e Section Labady	59,100	Increasing	340	-
Artibonite	3e Section Riviere Blanche	58,100	Fluctuating	-	1560
Artibonite	1re Section Platana	40,300	Fluctuating	-	3420
Artibonite	1re Section Villars	28,900	Increasing	380	-
Artibonite	5e Section Bastien	27,900	Decreasing	-470	-
Artibonite	8e Section l'Attalaye	24,300	Fluctuating	-	940
Artibonite	1re Section Poteneau	23,900	Increasing	-170	-
Artibonite	3e Section Pte Riviere de Bayonnais	23,300	Fluctuating	-	610
Artibonite	1re Section Deluge	19,500	Increasing	1,000	-
Artibonite	1re Section Crete a Pins	18,200	Fluctuating	-	260
Artibonite	8e Section Ravine Gros Morne	17,300	Fluctuating	-	2270
Artibonite	4e Section Poteaux	14,100	Fluctuating	-	210
Artibonite	3e Section Guillaume Moge (Quartier de Desarmes)	13,400	Decreasing	-210	-
Artibonite	4e Section Puilboreau	11,500	Increasing	590	-
Centre	1re Section Juanaria	77,800	Fluctuating	-	390
Centre	1re Section Renthe Mathe	55,600	Fluctuating	-	330
Centre	2e Section Juampas	35,700	Increasing	560	-
Grande'Anse	8e Section Fond Rouge Dahere	31,700	Increasing	770	-
Grande'Anse	3e Section Haute Guinaudee	21,100	Increasing	160	-

Department	Communal section	Population estimate Sep 2026	Trend type in the last 12 months	Estimated change over the last 12 months	Largest estimated month-to-month change
Grande'Anse	1re Section Grandoit	20,200	Decreasing	-240	-
Grande'Anse	1re Section Basse Voldrogue	19,700	Decreasing	-1,520	-
Grande'Anse	3e Section Desormeau	17,000	Fluctuating	-	200
Grande'Anse	1re Section Anote ou 1re Tapion	15,400	Fluctuating	-	120
Grande'Anse	6e Section Îles Blanches	14,100	Decreasing	-290	-
Grande'Anse	1re Section Duquillon	12,600	Decreasing	-140	-
Grande'Anse	2e Section Balisiers	11,700	Increasing	180	-
Grande'Anse	2e Section Haute Voldrogue	11,500	Increasing	310	-
Grande'Anse	2e Section Espere	11,300	Fluctuating	-	270
Grande'Anse	4e Section la Seringue	10,400	Increasing	-130	-
Grande'Anse	3e Section Grand Vincent	8,600	Increasing	190	-
Grande'Anse	3e Section Îlet a Pierre Joseph	8,100	Fluctuating	-	760
Grande'Anse	4e Section les Gommiers	7,500	Fluctuating	-	< 100
Grande'Anse	1re Section Bernagousse	6,600	Fluctuating	-	360
Grande'Anse	5e Section Duchity	5,700	Decreasing	-140	-
Grande'Anse	3e Section Garcasse	3,900	Increasing	260	-
Nippes	1re Section Chalon	44,500	Fluctuating	-	700
Nippes	3e Section Tournade (Quartier de Changeux)	20,000	Increasing	170	-
Nippes	2e Section Grande-Riviere-Joly	18,600	Increasing	310	-
Nippes	4e Section St-Michel	12,300	Increasing	120	-
Nippes	2e Section Fond-des-Negres ou Morne Brice	12,000	Fluctuating	-	220
Nippes	2e Section Anse aux Pins	11,500	Increasing	1,470	-
Nippes	1re Section Baconnois-Grand-Fond	9,400	Decreasing	-210	-

These population estimates come from Call Detail Records (CDRs) (mobile phone usage data) and other datasets for reference and adjustments. The estimates provided are not survey estimates, key informant estimates or field observations. Part 3 | Communal sections with changes in population estimates

List of communal sections with estimated changes in population where |total change|> 100 (01 Nov 25 - 30 Sep 26): increasing, decreasing or fluctuating

Department	Communal section	Population estimate Sep 2026	Trend type in the last 12 months	Estimated change over the last 12 months	Largest estimated month-to-month change
Nippes	1re Section l'Asile ou Nan Paul	8,800	Fluctuating	-	660
Nippes	3e Section Vassal Labiche	8,200	Fluctuating	-	490
Nippes	3e Section Lieve ou Vigny	8,000	Decreasing	-430	-
Nippes	3e Section Pemerle	7,800	Decreasing	170	-
Nippes	1re Section Baconnois-Barreau	7,700	Fluctuating	-	1750
Nippes	3e Section Arnaud (Morcou)	7,200	Fluctuating	-	1990
Nippes	3e Section Saut du Baril	5,700	Decreasing	-120	-
Nippes	4e Section Morisseau	4,700	Fluctuating	-	< 100
Nippes	1re Section Grand-Boucan	3,600	Fluctuating	-	310
Nippes	4e Section Bezin	1,700	Increasing	160	-
North	2e Section Haut du Cap	176,400	Increasing	870	-
North	5e Section Ravine Desroches	72,400	Fluctuating	-	370
North	1re Section Morne Rouge	47,100	Decreasing	-1,170	-
North	4e Section San-Yago	41,800	Increasing	290	-
North	3e Section Roucou	33,800	Increasing	950	-
North	1re Section Savannette	32,700	Decreasing	-340	-
North	7e Section Bassin	31,300	Fluctuating	-	1330
North	2e Section Bas de l'Acul (Basse Plaine)	23,600	Increasing	300	-
North	1re Section Ballon	23,200	Increasing	180	-
North	6e Section Cormiers	22,500	Fluctuating	-	160
North	2e Section Bas Petit Borgne	22,100	Fluctuating	-	680
North	2e Section Chabotte	21,200	Increasing	230	-
North	2e Section Petit Howars (la Fange)	18,200	Fluctuating	-	320

Department	Communal section	Population estimate Sep 2026	Trend type in the last 12 months	Estimated change over the last 12 months	Largest estimated month-to-month change
North	2e Section la Belle Mere	17,800	Decreasing	-540	-
North	2e Section Basse Plaine	17,300	Increasing	220	-
North	2e Section Morne Pele	17,200	Fluctuating	-	840
North	2e Section Bonnet a l'Eveque	14,800	Fluctuating	-	160
North	3e Section Genipailler	13,200	Fluctuating	-	230
North	3e Section Mornet	11,400	Decreasing	-180	-
North	2e Section Bois de Lance (Limonade)	10,700	Fluctuating	-	1000
North	1re Section Margot	10,400	Fluctuating	-	300
North	1re Section Camp-Louise	9,500	Increasing	110	-
North	8e Section Grande Riviere	8,300	Fluctuating	-	1050
North	6e Section Bras Gauche	7,500	Decreasing	-1,220	-
North	5e Section la Trouble	6,500	Decreasing	-200	-
North	1re Section Grand Gilles	4,900	Fluctuating	-	350
North-East	1re Section Haut Maribahoux	109,200	Increasing	740	-
North-East	3e Section Roche Plate	39,700	Increasing	430	-
North-East	1re Section Fond Blanc	21,300	Fluctuating	-	190
North-East	1re Section Champin	6,600	Fluctuating	-	150
North-East	2e Section Glaudine ou "Jacquesil"	2,200	Fluctuating	-	< 100
North-West	3e Section Aubert	105,800	Fluctuating	-	710
North-West	1re Section Baudin	61,800	Fluctuating	-	460
North-West	2e Section Derourvay	44,500	Fluctuating	-	1360
North-West	3e Section des Granges	25,000	Fluctuating	-	< 100
North-West	5e Section Dessources	23,500	Fluctuating	-	350

These population estimates come from Call Detail Records (CDRs) (mobile phone usage data) and other datasets for reference and adjustments. The estimates provided are not survey estimates, key informant estimates or field observations. Preparedness | Mobility situation report - Haiti

Part 3 | Communal sections with changes in population estimates

List of communal sections with estimated changes in population where |total change|> 100 (01 Nov 25 - 30 Sep 26): increasing, decreasing or fluctuating

Department	Communal section	Population estimate Sep 2026	Trend type in the last 12 months	Estimated change over the last 12 months	Largest estimated month-to-month change
West	3e Section Sourcailles	26,400	Decreasing	-3,370	-
West	1re Section Montagne Noire	26,000	Increasing	390	-
West	2e Section Boucassin	25,000	Increasing	430	-
West	12e Section des Fourques	22,700	Increasing	460	-
West	3e Section Petit Boucan	21,000	Increasing	1,040	-
West	4e Section Bellevue la Montagne	18,600	Increasing	1,190	-
West	10e Section Fond d'Oie	12,300	Decreasing	-550	-
West	8e Section des Platons	10,000	Fluctuating	-	650
West	2e Section Delatre	9,400	Increasing	250	-
West	4e Section Montrouis	8,200	Increasing	790	-
West	6e Section Matheux	8,000	Fluctuating	-	600
West	7e Section des Platons	7,200	Increasing	150	-
West	1re Section Boucassin (Arcahaie)	5,900	Increasing	390	-
West	3e Section Grande Source	5,900	Increasing	150	-
West	5e Section Grand Fond	5,700	Fluctuating	-	600
West	3e Section Trou Louis	5,600	Decreasing	-150	-
West	2e Section Fonds Baptiste	5,200	Increasing	720	-
West	2e Section Grand Vide	4,500	Increasing	100	-
West	5e Section Palmiste a Vin	3,900	Increasing	260	-
West	6e Section Trou Canari	3,100	Decreasing	-180	-
West	5e Section Gros Mangle	2,800	Fluctuating	-	< 100
West	12e Section Cormiers	1,600	Decreasing	-130	-

Department	Communal section	Population estimate Sep 2026	Trend type in the last 12 months	Estimated change over the last 12 months	Largest estimated month-to-month change

These population estimates come from Call Detail Records (CDRs) (mobile phone usage data) and other datasets for reference and adjustments. Authors And Funders

This report was authored by the Flowminder Foundation.

This work was made possible by funding from the UK Foreign, Commonwealth and Development Office (FCDO).

Acknowledgements

This study was made possible thanks to the anonymised (aggregated) Call Detail Records provided by a mobile network operator in Haiti.

How to use this report

We provide population estimates that take into account population movements within Haiti, per month and per communal section. We report the average decreasing/increasing trends for each communal section for which we have data. However, it is important to note that multiple trends can be observed over the reported 12-month period. The current crisis has led to large population movements, particularly of internally displaced people (e.g. IOM round 9)), which can result in population statistics becoming outdated over a few months, and therefore impairing preparedness efforts (e.g. hazard population exposure estimation, needs assessment, service and contingency planning).

Indicators presented

Modelled change (trend): the predicted population change for the reporting period from all 12 monthly estimates, which smoothes out monthly variations (linear regression).
Estimated change: the difference in the estimated population between the first and last months of the 12 month reporting period, which does not reflect any monthly variation within.

For communal sections with fewer than 10 months of resident estimates during the reporting period, we do not make a trend classification (insufficient data). For monthly population estimates at the department level, we carry forward the latest estimate to fill missing months in a communal section so that the aggregated changes at the department level are only based on observed CDR-derived mobility.

For communal sections with fast changing populations, we categorised them as 'increasing', 'decreasing'; 'stable', when there is little to no change; or as 'fluctuating' when large month-to-month changes prevented us from detecting a trend.

Report's data

This report uses our v5.0 dataset (documentation, release notes), available at https://haiti.mobility-dashboard.org.

This report and its contents may only be shared with attribution to the Flowminder Foundation and Digicel Haiti. Adaptation is permitted as long as the changes are indicated and the Flowminder Foundation and Digicel Haiti are cited. Use of the report and its contents is limited to humanitarian and development purposes.

Disclaimer of Warranties and Limitation of Liability: To the extent possible, Flowminder and Digicel offer this report and its contents as-is and as-available, and make no representations or warranties of any kind concerning this report and its contents, whether express, implied, statutory, or other. This includes, without limitation, warranties of title, merchantability, fitness for a particular purpose, non-infringement, absence of latent or other defects, accuracy, or the presence or absence of errors, whether or not known or discoverable.
To the extent possible, in no event will Flowminder or Digicel be liable on any legal theory (including, without limitation, negligence) or otherwise for any direct, special, indirect, incidental, consequential, punitive, exemplary, or other losses, costs, expenses, or damages arising out of the use of the report or its contents, even if Flowminder or Digicel have been advised of the possibility of such losses, costs, expenses, or damages. The disclaimer of warranties and limitation of liability provided above shall be interpreted in a manner that, to the extent possible, most closely approximates an absolute disclaimer and waiver of all liability.

Data privacy & governance

No personal data, such as an individual's identity, demographics, location, contacts or movements, is made available to the government or any other third party at any time. All results produced by Flowminder are aggregated results (for example, subscriber density in a given municipality), which means that they do not contain any information about individual subscribers.

This data is fully anonymised. This approach complies with the European Union's General Data Protection Regulation (EU GDPR2016/679). Data is processed on a server installed behind the mobile network operator's firewall in Haiti, and no personal data leaves the operator's premises.

Data considerations

The estimates shown are our best current assessment of movements. However, there are a number of uncertainties. The information should be interpreted together with other available evidence.

For more information about our methods, please read our Haiti Mobility Data Indicators documentation on residents and relocation at here.

Data Sources

Pseudonymised Call Detail Records: Digicel Haiti
CDR-based data products: Flowminder
Phone survey data: HT PS 2023
Field survey data:MSNA 2022 and MSNA 2024
Population estimates: UN data; IHSI 2015; and IHSI 2020.
